Candidates for the Degree of Master GRADUATE SCHOOL OF ARTS AND SCIENCES AND OF EDUCATION

The Graduate School accepts properly qualified candidates for the degree of Master of Arts, Master of Science, and Master of Education.

After admission to the Graduate School, the student must spend at least one full year in residence, pursuing the courses approved by the Dean and the student's adviser. Students who are engaged in outside work which reduces the time and thought they are able to give to study will be required to devote more than the minimum time to their study for the degree.

For the Master's degree, a student must secure a minimum of thirty semester hours of graduate credit in approved courses. To receive graduate credit, a grade of A or B (80-100) must be attained.

The candidate for a graduate degree must at the time of his matriculation, make choice of the department in which he wishes to do his principal or major work. In his choice of a department, the candidate is restricted to the fields of study in which he has had the necessary preparation in his college courses. In addition, the student must satisfy the special prerequisite requirements of his major department.

The entire program of studies which a student offers in fulfillment of the requirements for a degree must be satisfactorily completed within a period of six years from the date when he first registered. Should a candidate for any reason whatsoever fail to receive his degree within the time prescribed, all claim or right to continue working for the degree, or to have any or all of the work already accomplished credited in fulfillment of the requirements for the same degree, is *ipso facto* forfeited and annulled.

A very important part of the work for a degree is the thesis on some subject in the field of the candidate's major work. Two copies of an outline of the thesis, with the written approval of the professor under whose direction it is to be done, must be furnished to the Dean before the first of January of the scholastic year in which the degree is to be conferred. These outlines must be submitted on the forms supplied by the Graduate School office.

No thesis will be accepted for a Master's degree which is confined to the mere compilation of facts derived from the writings of others, nor will merely literary combinations of such information be acceptable. The thesis must show originality in the treatment of the subject chosen. This original treatment must give evidence that the writer of the thesis is capable of opening a new field of investigation,

or of offering such critical opinion that a real advance is made in the study of the subject treated.

In the preparation of the thesis, the candidate must observe the regulations in regard to forms of citation, footnotes, and the like, as set forth in the printed instructions by the Board of Graduate Studies.

Each candidate must furnish two bound typewritten or printed copies of his thesis to the College Library. These copies become the property of the College. The typewritten copies must be on paper of a uniform size, 8 inches by 10½ inches.

Written examinations in the different courses followed are required of the candidate on the completion of each course. A final comprehensive oral examination upon all work presented for the degrees is also required.

Special Requirements for the Degree of Master

For information regarding the special requirements for the various degrees of Master offered by the Graduate School of Boston College, consult the Bulletin of the Graduate School or address the Dean of the Graduate School, Boston College, Chestnut Hill, Mass.

Registration

The days assigned for formal registration are June 30, July 1, 3. During June, the office of the School in the Tower Building, Boston College, Chestnut Hill, Mass., will be open every day except Saturdays and Sundays from 2:00 to 5:00 in the afternoon.

Courses

A candidate for the degree of Bachelor will not be permitted to take more than three courses (six semester hours).

A candidate for the degree of Master will not be permitted to take more than two courses (four semester hours).

Fees

Matriculation Fee: New students	\$ 5.00
Old students	1.00
Fee for each course per semester hour	10.00
Laboratory Fee	By arrangement
Library Fee: per semester hour	1.00
Late registration fee	2.00

Attendance

Absence from more than ten per cent. of the lecture or seminar periods renders the candidate ineligible for credits for the course in question.

Withdrawals and Refunds

A student who withdraws from any course must notify the Dean immediately in writing of his withdrawal. Withdrawal from the course will become effective as of the date on which the Dean receives the notice. This date also applies to refunds.

Special fees are not returnable. Tuition fees are not returnable after July 15. Students who withdraw before July 15 will receive a pro rata refund.

N. B. The Faculty reserves the right to withdraw any of the courses in which there is not a registration of ten students.

Information

For information concerning graduate courses address: The Registrar, Graduate Division, Boston College, Chestnut Hill, Mass.; for undergraduate courses address the Registrar, Undergraduate Division, Chestnut Hill 67, Mass.

BIOLOGY (Bi)

S Bi. 108. BACTERIOLOGY.

This course treats of the basic principles of bacteriology and the relations of bacteria to chemical processes. Laboratory work includes the pure culture technique, a study of the morphology and metabolism of selected types and an introduction to applied phases of bacteriology.

Daily, one lecture and one laboratory period. Four semester hours.
